May 2015

Glorious springtime has finally arrived! Tulips and daffodils are all blooming in Westminster's flowerbeds. Trees are again sporting their green foliage, while many ornamental trees are covered in a variety of colorful flowers. With warmer days, residents are walking out to the pond to visit the swans and to see their new eggs. Swan incubation period is between 32 – 45 days, so residents will keep a close vigil for the new cygnets to be hatched. Stay tuned for the news!
