Westminster Village Resident Spotlight

“Feeling rather uncertain about my future life, I remembered that my husband, Joe, and I had always planned to move into Westminster Village, when the right time came. The move to Westminster was a huge decision but I am so happy to be here with such a friendly, professional, and dedicated staff. I am now happily residing here in Westminster with new friends and lovely memories. The residents are my new friends and their friendships are immeasurable to me. Westminster takes care of my needs as I am an aging resident. I pray for the staff, and residents to be healthy and enjoy their home here in lovely Westminster Village!”

Sharon Stephen grew up on a farm in Huntington County, which taught her a multitude of life treasures. She loved its vastness of open spaces, the beautiful fields of wheat, corn, and of course their animals. They even had three pet skunks; Inky, Winkie, and Skinky. Leaving the farm was a new experience for Sharon when she came to Muncie to attend and graduate from Ball State, with a degree in Family & Consumer Sciences. Sharon taught Science classes and Family & Consumer classes. She married Joe Stephen and they had two sons, Bradley and Stanley. Sharon feels that her life has been so blessed.

CCRC: Myth vs Fact

Myth: “A CCRC is the same as a Nursing Home.”

Fact: No, a Continuing Care Retirement Community is not a nursing home, but a nursing home is an important part of the benefits of living at a CCRC. Westminster Village offers Residential Living in apartments, Assisted Living, Rehab-to-Home, AND Skilled Nursing Care in our Health Center, all of this on 65 beautifully landscaped acres.

Westminster has consistently high-quality ratings that reflect our

commitment to providing the best care for our residents, whether it is

for a short-term rehab, long-term skilled care, or follow-up after a hospital stay. One of the biggest benefits of retirement living at a CCRC, such as Westminster, is that
