Westminster Village Resident Spotlight

“We moved to Westminster Village three years ago because we wanted to participate fully in the life here while we were able. At that time, all our children lived out of town. We wanted a community that would meet our needs now and in the future. When we made the decision, we did a cost analysis and found Westminster to be surprising affordable. We found an apartment that was under renovation so we were able to customize it to our taste. Housekeeping, laundry, maintenance and food services were unexpected bonuses. We love our fitness center, library, café, and event hall. During COVID restrictions, the staff have made heroic efforts to keep us safe and healthy. The outdoor walking trail, the pond with its swans and the beautiful grounds, give us ample opportunity to be outside. We are grateful to be here and doubly grateful we came when we could enjoy all the amenities.”

Ron and Sandy Mixell joined our Westminster family in 2018. Ron is a lifelong resident of Delaware County. He graduated from Royerton High School and Ball State University. Ron was a Product Development Chemist at Ball Corp until his retirement. Then he worked at the Delaware County Health Department. Sandy calls Wichita, KS home. She is a graduate of Wichita East High School, Kansas State Teachers College and has a MA+28 from Ball State University. In Muncie, Sandy taught at St. Mary School for seventeen years, and then became Principal from 1990-2000, when she retired. Ron and Sandy have been married for eleven years and have a blended family of six children and six grandchildren. They are members of St. Mary Catholic Church.

CCRC: Myth or Fact

Myth: *“It’s less expensive and more financially secure for me to stay in my current home.”*

Fact: Even though your mortgage may be paid off, monthly expenses to maintain your home and your lifestyle are higher than you realize, and less predictable as your home

ages or you are less able to physically manage the home. When combined with potential care costs, living in your current home may end up being the most expensive option.

The Swans are Nesting!

The Westminster Swans, *Bonnie and Clyde*, have built their nest and laid their eggs. The next time you are at Westminster Village, walk out to the pond to see *Bonnie* sitting on her nest.

March News From Westminster Village

We are happy to announce that visitors are welcome at Westminster Village from 8-11:00 am, 1-3:00 pm and 6-9:00 pm. Two visitors per

resident, per visiting time, may come inside the building to visit in the resident's apartment only. Upon entering our building, visitors must go through a short screening process, they must maintain social distancing and wear masks. On March 1st, the resident exercise classes also opened again. On Monday, March 15th, the Residential Dining Rooms opened for our residents to eat breakfast and lunch. Seating is limited as social distancing is observed. For now, dinners will continue to be eaten in the resident's

apartments. New residents will no longer have to quarantine 14 days if they have had their two vaccines completed two weeks before moving in.

Spring Move to Westminster Village

Thank goodness, spring weather is finally here! It is not too early to reserve your apartment for a spring or summer move-in. Why not consider beginning the warm summer season living at Westminster Village? Enjoy strolling around our beautifully landscaped grounds, sitting on the deck by the pond, watching *Bonnie & Clyde*.

You have new friends at Westminster waiting to meet you. With all of this and a variety of apartment floor plans to choose from, what are you waiting for?!!
